

ASSEMBLE

KITS

FOR KIDS:

Park

Clean-Up

HOW TO ASSEMBLE PARK CLEAN-UP KITS FOR KIDS:

STEP ONE:

Schedule a date and time to assemble your kits.

Turn your kit assembly event into a kit-making PARTY by inviting friends to join you!

Use an online platform, like [Evite.com](https://www.evite.com), to send invitations, or simply send an email or text message. Other options include asking someone in person, calling them, or sending paper invitations through the mail.

STEP TWO:

Gather your materials. To assemble 24 kits (*enough for a preschool classroom or two*), you'll need the following supplies.

Shop local, if you can.

- [12x18 Cellophane bags](#) (60 count ~ \$8)
- [Clipboards](#) (24 ~ \$28)
- [Crayons](#) (24 ~ \$30)
- [Small non-latex gloves](#) (100 ~ \$10)
- [Garbage bags](#) (50 ~ \$10)
- 24 copies of the [Litter Scavenger Hunt printable](#)
- 24 copies of [April's coloring page](#)

If you're planning to invite your friends to a kit-making party, use an online sign-up form, like [SignUpGenius.com](https://www.signupgenius.com), to help organize who's bringing what. (*This will also help offset the cost of supplies, so you're not buying them all on your own.*)

**As an Amazon Associate I earn from qualifying purchases.*

STEP THREE:

Assemble your Park Clean-Up Kits for kids.

If you've invited friends to join you, have food and drinks available; play music in the background; welcome people as they arrive; and introduce people who don't know each other.

1. Organize your supplies by laying them out on a table in the order you'll need them for assembly:

- Printed copies of the Litter Scavenger Hunt and coloring page
- Clipboards
- Cellophane bags
- Boxes of crayons
- Latex-free gloves
- Garbage bags
- Twist ties (or yarn, if you want to get fancy!)

2. Assemble your bags:

1. Place a copy of the Litter Scavenger Hunt on top of a coloring page, and secure them in a clipboard.
2. Put the clipboard inside a cellophane bag.
3. Add a box of crayons, (4) latex-free gloves, and (2) garbage bags.
4. Use a twist tie (or yarn) to seal the bag.

AFTER ASSEMBLING YOUR KITS:

Donate them to a local preschool or food pantry serving families in your community.
